Civil War Veterans of Northeast Tarrant County

Daniel Buck

Compiled by Michael Patterson
Copyright 2008. All rights reserved.

Daniel Buck was a Union veteran of the war who lived at Grapevine in 1890. Several other members of his family eventually settled here as well.

Daniel was born on July 20, 1836 in Monroe County, Tennessee. His parents were Jacob Buck (born April 18, 1802) and Mary Moore McCray (born January 1, 1810).

In 1850 Daniel and his parents and siblings were living in Lawrence County, Missouri. He married Sarah Frances Thompson in Lawrence County, Missouri on August 16, 1857. She was born in Missouri on July 24, 1841.

When the 1860 census was taken, Daniel and Sarah were living with no children in Washington Township, Webster County, Missouri.

In 1870 the family lived in Ozark Township of Webster County, Missouri. This census says Buck's son, William J., was born about 1861. At one time he had a headstone in Grapevine Cemetery, with birth and death dates of 1861 and 1881.

In 1880, they were in Turnback Township in Lawrence County, Missouri with children William J. Buck (born about 1868 in Missouri) and Lucinda Buck (born about 1874 in Missouri).

When the 1890 Special Census of Union veterans was taken, Daniel Buck of Grapevine said he had been a soldier in Co. F, 1st Missouri Artillery. He began getting a pension from the federal government for his Civil War service about 1890, and his wife began getting a widow's pension in 1897.

There are no standing readable headstones in any northeast Tarrant County cemetery for Daniel Buck or his wife.

A list of Daniel Buck's children includes William J. Buck, Lurinda Charlotte Buck (born February 27, 1875, married Henry Clay Simonds, died February 7, 1925), and at least two other children whose names are unknown.

Several descendants of this Buck family have placed queries and posted information on several of the internet genealogy sites.
